## Thank you for your purchase of Vilano Inline Skates!

## Safety Tips:

- Be sure the child wears proper safety gear before skating.
- A helmet, elbow, wrist and knee pads are highly recommended.
- If the child is a beginner, start on a smooth surface far away from traffic.

## **More Information:**

These fully adjustable skates come have one easy to use push button and two locking straps for the best fit.

To adjust the skates, first unbuckle the locking straps. Push the button near the skate's heel, grasp either end of the skate and pull apart to make larger, or push together to make smaller.

The polyurethane wheels are removable/adjustable with the enclosed Allen key. The wheels are greased at the factory to protect the bearings inside. The bearings require regular maintenance to perform at their best. If the wheels stick or do not spin smoothly, spray a tiny amount of brake cleaner on the bearings and spin until they loosen up. There are two bearings on each wheel (one on either side). Once the bearings are covered with brake cleaner, let them dry overnight. Re-lube with a bit of WD-40 and they are ready to use.

## **Contact Us:**

We appreciate your feedback! We hope this exceeded your expectations. If you enjoyed our product, feel free to leave us a positive product review. If you need help or have questions, please email us at **customercare@vilanobikes.com** and we will do everything in our power to be sure you are happy!
